

Please support MULTI-PLEXING for HD Radio. Our Radio Reading Service broadcasts on a sub-channel of the public radio station KMWU and nearly 4,000 listeners rely on this 24/7 service of local and national news and periodical readings. If subchannel carriers are not allowed when stations convert to HD we will lose our ability to reach those who depend upon us. Our service has been in operation for over 25 years, and is both needed and appreciated. Again support multiplexing on #99-325. Bridget Jones, WRRS Coordinator, 3317 E 17th N, Wichita, KS 67208 (316) 978-7053.
